PROFESSIONAL SUMMARY

Aspiring Python Developer with hands-on project experience in Object-Oriented Programming, data structures, and Django-based web application development. Skilled in building full-stack CRUD systems and menu-driven console applications using Python, Django, MySQL, HTML, and CSS, with practical exposure to Django ORM, ModelForms, and MVC architecture, alongside inheritance, encapsulation, method overriding, exception handling, and file handling. Currently pursuing a Python Full Stack Development certification covering MySQL, Django, and JavaScript. Brings strong communication, problem-solving, and stakeholder-coordination skills from prior process-driven professional roles. Seeking a Python Developer Trainee role to apply technical skills toward building scalable software solutions.

TECHNICAL SKILLS

Languages & Web: Python, HTML5, CSS3, JavaScript

Frameworks & Libraries: Django (ORM, ModelForms, MVC Architecture)

Databases: MySQL, SQLite3

Tools & Platforms: Git, GitHub, VS Code, PyCharm

Core Concepts: Object-Oriented Programming (Inheritance, Encapsulation, Method Overriding), Data Structures, Exception Handling, File Handling, Modular Programming, Debugging

PROFESSIONAL EXPERIENCE

Python Developer Intern | Fobes Skill iTech Private Limited

Aug 2026 – Present

- Developed a House Price Prediction ML API using Python, FastAPI, and Scikit-learn, exposing predictions through RESTful endpoints with a Random Forest Regression model.
- Implemented REST APIs with Pydantic data validation, API-key authentication, structured error handling, logging, and request tracking to support production readiness.
- Containerized the application using Docker and Docker Compose, and configured Prometheus for real-time performance monitoring.
- Automated testing (unit, integration, and load) with Pytest and built a GitHub Actions CI/CD pipeline for continuous deployment.
- Deployed the Dockerized application on Render with live Swagger/OpenAPI documentation for API consumers.

Senior Process Associate | RND Softech Private Limited

May 2022 – Mar 2026

- Performed insurance verification by directly liaising with US insurance companies to validate patient eligibility, benefits, and coverage details.
- Coordinated pre-authorizations for patient medical treatments with US insurance providers, ensuring compliance with payer requirements and process SLAs.
- Processed and managed healthcare orders, including urgent requests, ensuring accurate and timely delivery of medical supplies and equipment.
- Maintained accurate patient documentation and communicated effectively across phone-based interactions with US-based stakeholders.

Production Supervisor | The Jayaraj Group of Automobile

Mar 2021 – May 2022

- Coordinated with the store manager, sales associates, and customers to ensure efficient showroom operations and service delivery.
- Managed daily store activities including opening/closing procedures, inventory control, and safety compliance.
- Monitored sales targets and inventory levels, implementing measures to reduce stock loss.

System Administrator | Zigma Technologies India (P) Ltd.

Oct 2019 – Feb 2021

- Installed and configured hardware, software, operating systems, applications, drivers, and network infrastructure.
- Resolved system performance and compatibility issues while providing technical support and user account management.
- Maintained system security by implementing access controls, firewalls, and antivirus solutions.

ACADEMIC PROJECTS

ML Model Deployment as a Monitored REST API — House Price Prediction ML API

Python, FastAPI, Scikit-learn, Docker, Prometheus, Pytest, GitHub Actions, Render

GitHub: <https://github.com/sourav-srv916/house-price-ml-api>

Live Demo (Swagger): <https://house-price-ml-api-lcp2.onrender.com/docs>

- Built a machine learning REST API predicting house prices using a Random Forest Regression model with FastAPI.
- Added data validation, authentication, error handling, and logging; containerized with Docker/Docker Compose and monitored with Prometheus.
- Implemented automated, integration, and load testing with Pytest, and shipped via a GitHub Actions CI/CD pipeline to Render.

Django Student Management System

Python, Django, CRUD Operations, SQLite3, HTML5, CSS3

GitHub: <https://github.com/sourav-srv916/Django-Student-Management-System>

- Built a Django-based Student Management System with full CRUD functionality using Models, ORM, ModelForms, Views, Templates, and URL routing.
- Implemented student photo upload/display via Django ImageField and configured static/media files and migrations following MVC architecture.
- Designed a responsive UI with HTML5/CSS3, including form validation and clean navigation.

Bank Management System

Python, OOP, Exception Handling, Encapsulation

GitHub: <https://github.com/sourav-srv916/Bank-Management-System>

- Built a menu-driven banking application with PIN-based authentication, deposits, withdrawals, transfers, balance inquiry, and transaction history.
- Applied encapsulation and input validation to protect account data and ensure reliable user interaction.

Banking System Using Inheritance

Python, OOP, Inheritance, Method Overriding, Modular Programming

GitHub: <https://github.com/sourav-srv916/Banking-System-Using-Inheritance>

- Designed Savings and Current Account modules using Inheritance and Method Overriding, including interest calculation and overdraft handling.
- Implemented transaction history tracking and applied input validation across account and transaction workflows.

Employee Management System

Python, OOP, File Handling, Modular Programming

GitHub: <https://github.com/sourav-srv916/Employee-Management-System>

- Built a menu-driven Employee Management System with full CRUD operations, duplicate-ID prevention, and file-based persistence.
- Added analytics features including employee count, highest/lowest paid employee, and average salary calculation.

CERTIFICATION & TRAINING

Python Full Stack Development (Currently Pursuing) | Pumo Technovation, Coimbatore

Apr 2026 – Present | Skills covered: HTML, CSS, JavaScript, Python, MySQL, Django Framework

ACHIEVEMENTS

- Best Performer — Recognized as top performer for the Order Processing Department (RND Softech Pvt. Ltd.).
- Client Appreciation — Consistently praised for professionalism during live client meetings on Microsoft Teams (RND Softech Pvt. Ltd.).

EDUCATION

Bachelor's Degree, Computer Science | Mary Matha College of Arts & Science — 2015 – 2018
